

Dear Colleague:

Re: 2003 IMPACT FACTOR of "CMES: Computer Modeling in Engineering & Sciences": **1.957**
[ISSN: 1526-1492 (printed); 1526-1506 (online)]

Tech Science Press is pleased to inform you that the 2003 Impact Factor for CMES, just released by the Institute for Scientific Information (ISI), is 1.957. The relative standing of CMES with other excellent journals, whose aims and scope intersect with those of CMES, based on their 2003 Impact Factors, is as follows:

CMES: Computer Modeling in Engineering & Sciences: 1.957
Journal of Computational Physics: 1.762
International Journal for Numerical Methods in Engineering: 1.691
Computer Methods in Applied Mechanics & Engineering: 1.252
Computational Mechanics: 0.818
Computers & Structures: 0.634

Tech Science Press congratulates the authors, reviewers, and the editors, for maintaining the highest standards of academic excellence for CMES.

Authors and librarians may also be interested in the following journals, also published by Tech Science Press, in related disciplines:

CMC: Computers, Materials, & Continua [ISSN: 1546-2218 (printed); 1546-2226 (online)]
MCB: Mechanics & Chemistry of Biosystems [ISSN: 1546-2048 (printed); 1546-2056 (online)]

We are enclosing brochures for these 3 journals.

Authors may submit their papers, for review and possible publication, electronically through the web-site:
<http://submission.techscience.com>

We look forward to serving the academic and research community in the frontier disciplines of engineering & the sciences, especially at their interfaces.

We are also happy to inform you that the subscription prices for all of our journals for the year 2005, will remain the same as for 2004, despite our increased costs.

Sincerely,

John Simpkins
