

Activities

Wednesday, Nov. 18

- Special Program in Applied Mathematics and Applied Mechanics: L. – W. Kuo (National Health Research Institutes), *Mapping Brain Connective Network with MRI*, Rm308 (15:00 - 18:00)

News

Recent Visitor

- Prof. Martin A. Guest (Waseda University, Japan), Nov. 20 – 27, 2015, Rm311.
Research area: Geometry and topology.
- Prof. Alexander R. Its (Indiana University-Purdue University, Indianapolis, USA), Nov. 20 – 29, 2015, Rm310. Research area: Integrable systems. Asymptotic analysis, special functions, orthogonal polynomials and matrix models. Mathematical physics.
- Prof. Elizabeth N. Its (Indiana University-Purdue University, Indianapolis, USA), Nov. 20 – 29, 2015, Rm310. Research area: Scattering of elastic waves in inhomogeneous media by the Green's function and Riemann Hilbert methods.
