

## Classical Solutions in Elasticity

1. Full space ... Kelvin solution, Scottish, 1848.
2. Half space ... Mindlin solution in interior region, Physics, 1936.
3. Half space ... tangential force on surface, Cerruttis solution, Italy, 1882.
4. Half space ... vertical force on surface, Boussineq solution, 1878.
5. Half plane ... vertical force array on surface, Flamant solution, 1892.
6. Half plane ... vertical force array on surface (dynamic), Lamb solution.
7. Torsion
8. Bending
9. Cylindrical pressure
10. Spherical pressure
11. Infinite plate with a hole
