

## 邊界元素法1999 作業一

1. After viewing the demonstration disc of BEASY program and listening the outline of BEM from Prof. Chen, please find a paper of BEM in the journal (1999) and copy it.
2. Write down the name of Journal, Volume, number, authors, Keywords.
3. Translate the abstract.
4. Is that one using conventional BEM or dual BEM ?
5. Write down the possible applications in engineering for this paper.
6. Any other comments ?
