

科技論文之方法章節

— 陳正宗 —

國立臺灣海洋大學河海工程學系

1 Theory

- (1). Assumption
- (2). Derivation and formulation
- (3). Lemma
- (4). Corollary
- (5). Theorem
- (6). Existence and uniqueness
- (7). Convergence and divergence
- (8). Proof

2 Experiment

- (1). Set up
- (2). Specimen preparation
- (3). Testing condition
- (4). Design variable
- (5). Sampling and statistical analysis
- (6). Tense

3 Numerical method

- (1). Algorithm
- (2). Hardware
- (3). Software
